About Fair Trade Manitoba (FTM)

Fair Trade Manitoba (FTM) is a coalition of individuals, families, organizations and businesses who are working to increase awareness of fair trade principles and products. We hope that our efforts plus increased fair trade purchases made by consumers like you will help to improve incomes and working conditions among producers and artisans in developing countries, as well as help contribute to a more sustainable environment.

Fair Trade Manitoba is a project of the Manitoba Council for International Cooperation (MCIC). We do not represent any retailers, nor do we campaign against any retailers. Our aim is positive and concrete – to increase knowledge of fair trade principles and the sale of fair trade products.

About This Guide

Our web site and guide, as well as our events and informational materials, are designed to educate us all and to help make fair trade products easier to find throughout the province.

This newly updated guide is available on our web site at www.fairtrademanitoba.ca. Please feel free to download and print off a hard copy for your own use or to distribute to others.

We invite all retailers and restaurant owners in Manitoba which regularly carry or serve fair trade products and who want to be listed in our guide to contact us by email (fairtrade@mcic.ca). And if your favourite shop or café selling/serving fair trade products has not yet made it into our guide, please send us the store's/café's name and contact information so that we can follow up. Or ask them to contact us!

Fair Trade Manitoba's guarantee is that we are doing everything we can to promote only items that are truly fairly traded. We have developed a definition of fair trade (on the following page). We have asked the stores and cafes included in the guide to use this definition in providing the information used for their listing. We trust that the information provided by the merchants is accurate.

Become a Member

We welcome individuals, families, organizations and businesses to become FTM members and to help build our network. A membership package is available on our web site or by emailing fairtrade@mcic.ca. There is no cost for membership, but we invite you to make a tax deductible donation, payable to the "Manitoba Council for International Co-operation – Fair Trade Manitoba" at #302, 280 Smith St., Winnipeg, MB R3C 1K2. We would also invite you to consider volunteering some of your time and expertise to help us promote fair trade in Manitoba.

* While we will update the guide as regularly as we are able, we realize that addresses, hours of operation, product availability and other details may change. We apologize for any inconvenience.

Fair Trade Manitoba's Definition of Fair Trade

FTM defines fair trade as an alternative approach to trading that:

- Promotes global economic justice, dignity and environmental sustainability through equitable trading relationships between northern importers and southern producers.
- Is based on fair trade principles as adopted by the Fair Trade Labeling Organizations International (FLO-International) and adapted by FTM. These include:
 - direct trade,
 - fair price,
 - long-term commitment,
 - access to credit,
 - democratic management,
 - public information,
 - environmental sustainability, and
 - community development.
- Recognizes that adherence to the principles of fair trade can contribute to a more equitable and sustainable system of production and trade that benefits people and communities around the world.

FTM recognizes products displaying the Fair Trade Certified label (associated with FLO-International), as well as those products sold by Fair Trade Organizations (FTOs) which are recognized members of the International Fair Trade Association (IFAT), as having been produced under fair trade conditions. FTM believes that both international organizations contribute toward accountable and transparent verification practices of fair trade products.

Fair Trade Certified Label

FTO Mark

FTM also recognizes the fair trade status of goods that have been produced as part of long term partnerships between southern communities and the local Manitoba non-profit organizations which are playing leadership roles in international development efforts in the province.

FTM does not assess the fair trade status of other products. These include products imported by corporations that may have developed internal corporate certification labels and/or products sold by small, local shops which may have direct relationships with southern producers. FTM strongly encourages consumers to collect the information necessary about such products to ensure that fair trade claims are legitimate.
